VENUE: IQAC Cell

NO. OF PARTICIPANTS: 26

This is a detailed report on a 5-day Basic Life Support (BLS) and Advanced Cardiac Life Support (ACLS) training program. The program covered various topics, including:

1. BLS Provider Course
2. ACLS Provider Course
3. BLS Trainer (TOT) Course

The training program included both theoretical and practical sessions, with an emphasis on hands-on skills training. The participants were assessed on their skills and knowledge, and those who completed the program successfully received certification. The report highlights the importance of BLS and ACLS training in saving lives, particularly in cases of cardiac arrest, respiratory arrest, and other life-threatening conditions. It also emphasizes the need for regular training and updates in these skills to ensure that healthcare professionals are equipped to provide high-quality care. Overall, the training program was successful in equipping the participants with the necessary skills and knowledge to provide BLS and ACLS care, and that the trainers were experienced and effective in delivering the course content.
